

PRODUCT 01

GREEN MASTER

LIQUID FERTILIZER

a pre-mixed or water-soluble nutrient solution that plants absorb quickly through their roots or leave

**Stronger Plants Better Growth
Higher Yield**

KEY BENEFITS

- Promotes vegetative growth
- Helps plants recover from stress
- Suitable for soil application
- Suitable for foliar spray

PRODUCT 02

POTTASCIUM HUMATE

Premium Potassium Humate Flakes

A concentrated organic soil conditioner and plant growth stimulant typically containing around 68%–98% humic substances. They are fully water-soluble shiny black flakes used in agriculture and gardening to improve nutrient uptake and root development.

100% Water Soluble Soil & Root Enhancer

KEY BENEFITS

- Water-soluble soil amendment
- Supports soil health
- Helps enhance root development
- Supports nutrient utilization

PRODUCT 03

BIO CHIT**BIO ENHANCER**

Bio Chit is a natural plant growth stimulant that enhances root development, improves nutrient uptake and boosts plant vigor for higher yield and quality.

Better Growth Better Yield**KEY BENEFITS**

- Supports crop yield
- Boosts plant resistance
- Promotes strong root development
- Enhances nutrient availability

PRODUCT 04

AGRI LIME**LIME CaCO_3**

A crushed limestone or chalk soil additive used to reduce soil acidity and improve crop yields.

**Healthy Soil Stronger Plants
Higher Yield**

KEY BENEFITS

- Provides calcium through lime
- Supports balanced soil conditions
- Supports crop productivity
- Helps improve soil health

PRODUCT 05

CHLORPYRIFOS 5% DP

Broad Spectrum Insect Control

a broad-spectrum combination insecticide used to control chewing and sucking pests like bollworms, aphids, and stem borers in crops such as cotton and paddy.

Broad Spectrum Insect Control

KEY BENEFITS

- Effective on soil & foliar pests
- Designed for crop protection
- Supports healthier crop growth
- Broad-spectrum insect control

PRODUCT 06

AGRI - GOLD

Premium Biostimulant

an advanced natural substance or microorganism applied to plants or soil to enhance nutrient efficiency, stress tolerance, and crop quality without directly supplying nutrients like a fertilizer

Nurturing Plants Enriching Harvests

KEY BENEFITS

- Supports crop nutrition
- Supports better growth & yeild
- Enhances plant metabolism
- Supports crop nutrition

PRODUCT 07

AGRI - CYPER

Cypermethrin 5% EC

dual-action broad-spectrum
combination insecticide

**Reliable Protection. Better
Harvests**

KEY BENEFITS

- Powerful insect control
- Helps protect crops
- Suitable for crop protection programs
- Supports healthy yield

PRODUCT 01

AQUA SPREAD

Premium Non-Ionic Surfactant & Spreader

an agricultural adjuvant that lowers water surface tension to make pesticide and fertilizer sprays spread and stick evenly.

**Better Coverage • Deeper
Penetration • Maximum Results**

KEY BENEFITS

- Improves spray coverage
- Enhances nutrient & pesticide efficiency
- Supports deeper penetration
- Improves spray performance

PRODUCT 09

YEILD – MAX

Premium Organic Nutrition

Yield Max is made from 100% organic matter and contains no pathogens. It is enriched with NPK and essential micronutrients that support healthy plant growth and higher yield

Healthy Plants Higher Yields Sustainable Future

KEY BENEFITS

- Boosts plant growth
- Enhances yield & quality
- Enriched with NPK & micronutrient
- Supports stronger crop development
